

MISHA MAHENUR ALAM

Dhaka, Bangladesh | 01891995265 | mishaalam832@gmail.com | <https://www.linkedin.com/in/mishamahenuralam/> | <https://github.com/misha832-ux>

PROFESSIONAL SUMMARY

Computer Science and Engineering student with a strong academic record, hands-on experience developing full-stack projects and peer-reviewed research published in the ACM COMPASS 2026 proceedings. Experienced in collaborative software development, problem-solving, and taking projects from requirements and design through deployment.

EDUCATION

B.Sc. in Computer Science and Engineering | BRAC University, Dhaka

Expected Graduation: September 2026 | CGPA: 3.77 / 4.00

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript, TypeScript

Web Development: HTML, CSS, React, Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Linux, LaTeX, Render

PROJECTS

Nobojatra | Next.js, TypeScript, MongoDB, React-Leaflet

<https://nbojatra.onrender.com>

- Collaborated on a Dhaka-focused trip-planning and ride-hailing fare comparison platform, owning the map visualization and live traffic integration features
- Built live traffic overlays using TomTom Matrix Routing and tile proxy APIs with per-leg congestion coloring, and implemented Trip Summary/Trip History pages with new Mongoose models and API routes.

Study Buddy | React, Node.js, MongoDB, Render

<https://study-buddy-pqwb.onrender.com>

- Collaborated on a MERN-stack study assistance platform enabling students to organize learning resources and coordinate collaboratively.
- Deployed the application to Render, resolving environment configuration, dependency conflicts, and cross-domain authentication issues to achieve a stable production release.

AI-Assisted Writing Research Tool | React, Node.js, MongoDB, Render

<https://p2-diin.onrender.com>

- Built a full-stack research platform to collect and store writing samples across separate AI-assisted and manual-writing collections in MongoDB for a comparative UX study.
- Fixed critical bugs in form validation, paste-blocking logic, and React state management (stale closures), improving data integrity for downstream analysis.

RESEARCH EXPERIENCE

A Study of Usability and Accessibility of Private and Public Hospital Websites in Bangladesh

- Co-conducted a mixed-methods HCI study analyzing usability and accessibility across public and private hospital websites in Bangladesh, combining a 65-participant survey with 12 in-depth interviews. Published in ACM COMPASS '26 proceedings following peer review; available in the ACM Digital Library (DOI: <https://doi.org/10.1145/3811242.3827560>).
